

Revenue Cycle Services

Optimize Results

Focus Your Operations on Patient Financial Engagement

Improving self-pay performance is not a set it and forget it proposition. It requires focus for continuous bottom-line improvements. Which is why Apex backs our industry-leading, cloud-based software solution with analytics dashboards, patient-centric messaging and patient revenue cycle consulting services to support you in the ongoing pursuit of better results.

Whether you want an initial one-time service to kick start your cycle and segment based patient financial messaging strategy or an ongoing and proactive, analytics-driven engagement in which an Apex Revenue Cycle Consulting team will facilitate ongoing discovery, analysis, opportunity identification, and product and process modifications to impact financial results over time – we will work with you to outline the best option for you and your budget.

BENEFITS

- Reduction in bad debt
- Improvement in patient satisfaction
- Increase in cash
- Increase in revenue
- Increase in front-office collections
- Cost reductions that extend to the full patient revenue cycle, including service and collection-related costs
